HELP PREVENT CRIME & SAVE LIVES WITH CUTTING-EDGE TECHNOLOGY

A suspicious vehicle has been visiting our warehouse. Can I get notified when it appears again?

Can I trigger an instant alert if an unauthorized vehicle tries to enter our campus?

Can I see which vehicles visited our location around the time a theft was committed?

Can I see when & where this wanted car was spotted over the last 90 days?

Can I find all vehicles matching a partial plate that was reported in a kidnapping investigation?

Can I monitor my rental car fleet to ensure it is being utilized at maximum efficiency?

Can I use the vehicle data of our resort visitors to more effectively market to our target segments?

The driver of this vehicle usually orders a chicken sandwich and a milkshake. Can I automatically show a custom menu along with upsell offers?

Can I be notified of approaching customer vehicles and automatically open the gate for them to trigger accurate & in-time curbside delivery at my hardware store?
